

Group Buy:\$30 Savings on Tow hook/ Go Pro mount combo

Diablo Region has an opportunity for a Rennline screw in stainless steel Tow Hook and Go Pro Camera mount group buy for our region. The set normally retails for \$154.95 total, \$95 for the tow hook and \$59.95 for the camera mount. The Go Pro Camera is not included in this price. We need a minimum of 20 buyers and the discounted group price will be \$125 for the set, that's a \$30 savings! These are very high quality components made to aircraft specs that use the Porsche factory screw in tow hook "socket" in the front bumper and also the one at the rear of the car, I believe behind the license plate. This set fits the 964, 993, 996, 997, Boxster, Caymen, 944T and 968 provide they have the factory screw in tow hook socket. The hooks have rubber padding on the back so your bumper paint won't get damaged. Once we have the minimum 20 buyers ordering will be simple. Rennline will create a Diablo special discount code on their site that the member simply enters giving them the \$125 discount price. The member deals directly with Rennline and the items will ship directly to the member. This will make the process very simple for everyone. Please see the attached photo to see the tow hook and Go Pro mount.
